## 5. How to Preview Locally

1. Save `index.html` in a folder.
  2. Place all images in an `images` folder within the same directory.
  3. Open `index.html` in any browser (Chrome, Firefox, Edge).
- 

## 6. How to Upload Online for Free

### Option 1: GitHub Pages

1. Create a free GitHub account.
2. Create a new public repository.
3. Upload `index.html` and `images` folder.
4. Enable GitHub Pages in repository settings.
5. Access live site at: `https://username.github.io/repository-name/`

### Option 2: Netlify

1. Create a free Netlify account.
  2. Upload project folder using drag & drop.
  3. Get a free live link immediately.
-

## 7. Next Steps / Features to Add

- Functional "Add to Cart" buttons
- Checkout page and contact forms
- Mobile responsiveness improvements
- Animations and hover effects enhancements
- Payment gateway integration (for real selling)
